Waiter, is that man alright? I mean, he was just muttering gibberish. First, he was eavesdropping on my call. Then he started his gibberish. Then he handed me this note. Any idea what this is all about? Weird. Is something wrong with him?

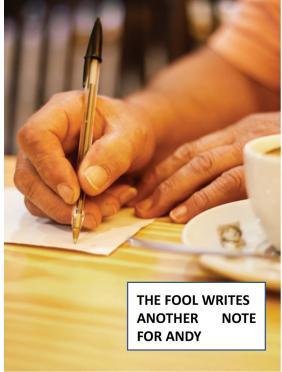

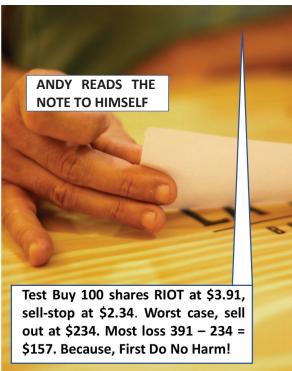

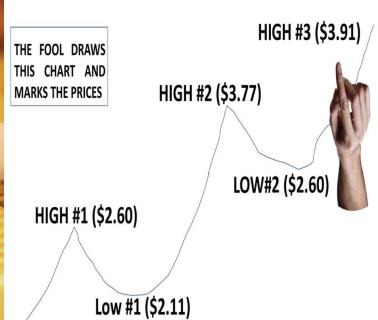

Hey, Blockchain! Yes, tough man.
Difficult. But she ready to riot,
now. Did you check her weekly?
She ready!

Could you please text me when he comes in here again?

Sure thing, Mr. Andy. I will text you when I see *The Fool* again. But you shouldn't get worked up about stocks. That is not healthy!
